There has been a change of Speakers for the next meeting on Saturday, March 20th.

Ken Bennett, who is an integral part of - The AZ51 VOTER PROJECT - team, and an old friend of Sun City Grand Republican Club was originally scheduled to speak to us. I know we were all looking forward to welcoming him back... However, we are now very excited to learn that Jim Lamon, the Founder of this outstanding project has cleared his schedule and is now able to personally give us his vision.

He is a dynamic, focused, successful business man who left his company as CEO, setting a personal goal of providing a Republican majority in the U.S. Senate in 2022 - the 51st vote! He has a viable plan to do just that!

By way of introduction, Jim Lamon is the Founder and CEO of DEPCOM Power which designs, builds and operates solar plants across America with headquarters in Scottsdale.

Jim grew up on an Alabama farm. He played football at the University of Alabama under Coach "Bear" Bryant! After 2 years, he traded his football scholarship for an ROTC scholarship and graduated with a Civil Engineering degree. Afterwards, he joined the Army Airborne School. Over the years, he gathered the valuable lessons learned from growing up on a farm, playing football, and serving in the military to build his successful business. Jim is a loyal Trump supporter and has an ongoing personal relationship with him.

He is a philanthropist who donates 10% of his Billion dollar company's earnings to worthy charities every year...in other words, he lives his principles. He also puts his money where his mouth is by pledging \$10,000. per month to the MCRC until the next general election to assist in registering voters for the Republican Party. We'll see you all there!

This is an outside event on the grass. Per CAM rules: guests are responsible for their own chairs/blankets and masks! Transportation of chairs to the Amphitheater from the parking area near Angela's will be available if necessary.
